Genesee Valley Conservancy

I am pleased to present you with 100 original paintings inspired by the Genesee Valley, created by local artists.

With this year long project, Genesee Valley Conservancy hoped to capture the intrinsic values of the region that we have been working to conserve for 28 years.

With community and landowner support, over 17,000 acres of wildlife habitat, open space, and working farms have been conserved to ensure future generations can continue to appreciate the Genesee Valley.

I hope you enjoy the art created for the Genesee Valley 100 project. Perhaps, like me, you will find a piece to bring into your home to remind you of the important landscape in which we live, work and play.

A handwritten signature in blue ink that reads "Ben". The letters are fluid and cursive, with a prominent 'B' and 'n'.

About

The brewery opened in March of 2017. We included large blank walls for the purpose of showing local art and providing a venue for artists to reach the community.

The Beer

We're into rustic farmhouse beer styles, and beers with bold but clean American flavor profiles—beer with character, a bit of context and lots of experimentation. Our region is an agricultural powerhouse. Be on the look out for beers that offer a nod to changes of season, harvest time, and use locally sourced ingredients.

About

Since 2012, we have supported Genesee Valley Conservancy's Nature Walks and Events programs that connect the community with important conservation projects in the region.

Bluebell Hikes

The most popular nature walk of the year are the bluebell hikes. Hundreds of people attend these annual hikes in Genesee. This 1991 conservation project protects 400 acres and features the fleeting flowers that bloom for just one week!

About Us

Funding provided through the Genesee Valley Arts Grants helped support the purchase of canvases to distribute, several community 'paint-out' sessions, and talks that resulted in this body of work that you see today.

Paint Out Sessions

The Conservancy arranged various community based engagement events around this project, including providing exclusive access to conservation lands to inspire artists.

Apply for Funding

About Us

Based out of Rochester, we install solar energy systems throughout New York, primarily focusing on residential scale units that can replace all of your electricity needs.

Education

In 2017, we supplied solar equipment to the Geneseo Central technology class so they could learn first hand about solar energy through designing and building a 'solar-cart' that is now used at events like the Oak Tree Half Marathon & 5K.

About Us

We work to conserve the important lands in the Genesee Valley that provide clean air and water, support working farms, and provide outdoor recreation.

New Nature Preserve

We are working to acquire a 50 acre forest in Wayland, Steuben County, with important trout-stream headwaters. In 2019, we will work on a management plan for this property to ensure this clean water remains viable trout habitat and other wildlife.
